------------	-------------------	---------------	----	-------------------	---------------	-------------------	-----

Please submit the proposal for your project before the end of week 6. You don't need to wait for the feedback on your proposal. Go ahead to work on your website after you submit your proposal.

The purpose of having the proposal is to set a checkpoint to make sure you get started early enough. If you change the theme or some details in the real implementation, that is fine. You don't need to submit another proposal. We just want to make sure you are on the right track.
